SEARCHRECRUITMENT

North Lincolnshire & Goole

working in partnership

Tour Case Study 2013
European Nurses

We helped North Lincolnshire & Goole recruit 30 nurses to reduce NHS shortage crisis.

Claire Smaller - HR Manager from North Lincolnshire & Goole, contacted us in August to help them quickly recruit qualified nurses to fill their shortfall. We arranged a meeting straight way and identified candidates that would be suitable according to the job description, and started the recruitment process the very next day.

We screened and interviewed hundreds of Spanish nurses, narrowing it down to an interview group; which was conducted in Madrid with the hospital who gave a job offer to 30 successful, qualified and enthusiastic nurses who were excited to embark on their journey to the UK.

"Search were excellent! they were very motivated and were of a high calibre. The flow was just right and the venue was ideal. The number of candidates was achievable in terms of interviewing that number a day given the support from Search."
